

The illusion of politics, parliamentarism, government, legal system, banking and commerce and self-appointed leaders claiming superiority

Channeling from ONE Creator

All are equal

No man or woman or child or animal, bird, insect etc is better or more important than any other man, woman, child, animal, bird or insect.

All life on earth is sacred and created by ONE and all Creator.

No-one on Earth has right to decide over anyone else but him or herself. All laws on earth used in western legal court systems are established, maintained and upgraded over the years to only one outcome: control over the masses by the Kings and Queens, Emperors, Presidents etc and their associates in secret societies worldwide and their associates in business, state and government etc.

Man-made laws only apply to the peoples of the world who are **not** royalty or otherwise self-appointed "leaders" for masses in other ways such as the Vatican popes, their Jesuit cryptic Khazars and all their associates!

The self-appointed leaders of the world are living in a delusion that they have the right to be your boss and decide over you.

You reading this, may be living under the illusion that politicians, Kings and Queens, Popes, Presidents etc have the right to decide on your behalf and be your "master". These all live under an illusion, the illusion of the division between master and slave. There is no division, because all are ONE.

All on planet Earth are created by the Creator and all ARE equal in importance to, and for, Creator.

Religions

Religion is not the same as faith. Religion is a control system put in place by others than those who had a strong spiritual experience and wished to pass on the meaning of their experiences to others to inspire others to see reality.

Religion, like law, politics, self-appointed leaders and trade, banking and commerce is a control system to place limit upon peoples' openness, to create division within and outside the mind, to nourish division within societies to enable those self-appointed leaders mentioned above to more easily seek and maintain control.

By creating organized religions, then counter-reformations followed by later invented religions, those self-appointed leaders have managed to manipulate peoples of the world to mistrust and hate each other for

InfoWarriors of Norway One Existence of royal families..

centuries, thus enabling them to more easily weaken and control other countries as their peoples are already divided amongst themselves.

No one color or kind of race exist as all is created by the ONE Creator. All talk of race is therefore an attempt of the self-appointed leaders of the world to created hatred and division between people of the world to nourish instability to enable self-appointed leaders to destabilize areas of word, and more easily steal resources from other countries.

Politics and parliamentarism

All politics is a lie. The vast majority of the world's most important political families are descendents of the self-adoring 13 tribes of Israel, now calling themselves the Illuminati.

These families are living and have been living under the delusion for hundreds of years that they are better than everyone else on Earth, and that everyone else on Earth except themselves is valueless. This is a severe form of disillusion which can be described as paranoia and severe mental disorder. Fortunately these people and their associates in royal families, business, banking etc are now losing as the masses are awakening to reality.

Parliamentarism and politics in general was invented by the Illuminati families as a covert control scheme just like banking, the legal system, religion and commerce.

The populations of the world are indoctrinated over long time to believe in politics, parliamentarism and democracy. Reality is different from delusions and illusions peoples of world have been living under.

Secret meaning of words

Believe real meaning is **be leaving**. All words in all languages have three meanings: one positive, one neutral and one hidden negative based either on two uses of same "spelling" or on second same phonetic sounding, but different "spelling."

Many languages in world have the word "spell" giving an association to magic to language. This is correct. All language has been manipulated over hundreds of years to manipulate masses again for con-trol. Every word commencing with "con" is part of the fabricated language made by self-appointed leaders to "con-trol" you through their schemes. To name just a few: con-stitution, con-tract, con-stituent.

"Believe" second meaning is **be leaving**. When you know reality you will be leaving what you before be-lieve. Remember that each autumn the leaves be leaving, just like you mankind should be-leaving their beliefs. In other words, when you know reality you will be leaving your earlier believe ins = beliefs!

InfoWarriors of Norway One Existence of royal families..

The words with "con" in such as con-trick and con-man not to mention control and others are now so far integrated into English language that it will be a challenge to find alternative words.

Politics is an illusion and the real illumed
 Politics is an illusion of choice to distract you from the fact that all important leaders in politics all work for, and are, illuminati families who together with their associates around the world, form the New World Order.

Political parties do not represent the people of their country but their own interests and those working higher up, i.e. secret societies and the Illuminati/New World Order.

The real Illuminati is a select few individuals on earth who are benevolent and whose one desire is to protect peoples of this Earth and this planet's transition to the next dimension. The self-appointed dark "elite" who call themselves the Illuminati are not the real illumed. The self-appointed illuminati are satanists and pedophiles whose primary intention is to destroy all peoples of world and the planet, Lady Gaia.

Politics today is same as yesteryear, about control over world's peoples and about robbing peoples of world of their natural rights as given by Creator, as well as steal countries' resources to others outside your country in assistance with the legal system, the bank system and the world of commerce and trade.

Peoples of world must learn now to take responsibility for themselves, not delegate responsibility or decision to others. This, combined with taking care of each other, and taking care of our health through eating only clean organic food is critical to a good life on Earth.

The legal systems and cons

The legal system was invented to rob peoples of the world of their natural Creator given right to equality and a good life on earth. Together with the legal system, the world of politics and banking these con-nive together to con-ning you with the use of con-tracts and con-stitutions to give you convenience of not having to decide over yourself but delegate responsibility to others.

Con-verse is to speak together but not tell the truth. All con-veniences are exact that, a con. Knowing now that all con-veniences are a scam to take away your ability to decide over yourself, and also in majority of cases today, to damage deliberate your health, think hard about all areas of life where you revert to con-venience.

All advertising and indoctrination by self-appointed leaders, their self-appointed authorities and their associates in business, trick you into buying products for convenience. Smart technology is one of these, as was and is the existence of microwave ovens which both radiate you well beyond the limit of the oven, but also radiate your food or drink to kill it of all nourishment.

The legal system like systems of government and state, politics and banking, has only ONE intention: to rob you, to remove your natural rights as temporary inhabitator on Earth and steal your country of its resources to foreign residing self-appointed criminal leaders.

Laws were more safe for peoples of world under Magna Carta inspired Common Law = Law of the Land. Mafia Khazarian gangsters have hijacked all legal systems of world by forcing Maritime Law in all courts when they, parallel to this, hijacked every country by enforcement in collusion with banks who together form the Federal Reserve.

Maritime Law = Pirates' law. All constitutions are founded upon Maritime Law and are therefore not in favor of a country's and its citizens, and therefore a swindle. The peoples of the world have been tricked into a huge lie the last 50 years or so, to believe (be leave) Human Rights and so on, when the Constructors of the law systems in each country, just like the constructors of contracts in bank and commerce and chief politicians and statesmen etc ALL know that the peoples of world under Maritime Law (piracy) have no rights whatsoever.

Today's legal and banking systems are based entirely on fraud from the day your country was forcefully acquired by the gangster bankers making up the Federal Reserve.

All lawyers and judges do not write their name clearly on the documents they are obliged to, but use a signature. This is so that they can claim indemnity and can not later be persecuted or prosecuted.

All doctors, lawyers, dentists, police, judge, politician or any state employee using a doodle signature is above the laws the rest of the peoples of the world have to obey.

Signature = sign away responsibility.

Peoples of the world therefore have to take more responsibility for themselves, delegate less and demand more with regards to all users of doodle signatures. Allow no acceptance for contracts, demand legally binding agreements with handwritten names where you yourself witness the handwriting of names of those responsible in their presence.

The banking system and cons

In short the banking system is built entirely upon fraud when all banks were converted to fractional reserve practices after each national bank was hijacked by the privately owned banks forming together the Federal Reserve.

All banks have never served peoples as they have never been owned BY the peoples of the world, but owned by private families who are again, like most leading politicians no matter what party, nothing more than descendents of self-appointed leaders of the world, the majority of them descendents of the Illuminati families (dark side of the illuminati, not the real illumed few) living in extreme delusion that they are worth more, and more important than every other person virtually than themselves. They are also con-ved, living in delusion and illusion, but they are not aware of it. The peoples of the world in the next years will all rapidly realize reality of the extent of illusions they have been exposed to, and seek new solutions. This is called the Spirit and Society awakening to the real which will bring with it many solutions for tomorrow.

State and government

All employees of state and government will be shocked when they see reality that they work for employers whose sole intention is to assist self-appointed leaders of world to steal their population of its rights, valuables and country's resources and that therefore these state and government employees assist in destruction of their own country and own population.

As the Social awakening rapidly increases many will experience shock on seeing reality and understand that they have, in effect, been employed towards civil war against their own countrymen and country.

There is no place for yesteryear in tomorrow. Banking, politics, Kings and Queens and Popes and Bishops – all will be yesteryear. All is just a matter of time, but a rolling snowball of Social awakening can not be stopped. As the rolling snowball, so the Social awakening – it rolls quicker and quicker and becomes larger and stronger as it rolls down the mountainside, crushing the negative system as the Awakening increases to an avalanche.

Western media's con-spiracy

Western media and agents of state and government have used the label "con-spiracy theorist" against people of the world awakening to reality. Con-spiracy is a "con" word, and as mentioned before, all words beginning with "con" are false and fabricated by the powers that be to manipulate others, as described above.

Con-spiracy = con's piracy

Governments, state, legal system, bank system and world of commerce use the con-trick of piracy, with the use of the parallel language of maritime law = legalese (=legal lies) to trip and trap the unsuspecting people of the world.

InfoWarriors of Norway One Existence of royal families..

Lawyer = liar

It is the above, governments, states, legal system, bank system and world of commerce which together with its con-niving mass media which together ARE conspiracy theorists as they use elaborate lies and a parallel language in courts and con-tracts, and through media (medium=magic) entrap people of the world with their fabricated lies.

Khazarian New World Order con-trol governments, banks, states, law systems, commerce and media, and are ALL conspiracy theorists, the world's biggest illusionists and liars.

Now you know the truth – those that use label of con's piracy theory against you are THE CON'S PIRACY theorists – ALWAYS BLAMING OTHERS for what they do, to protect themselves.

The "con" is the New World Order bankster gangster, political and monetary system invented to suppress and rob humanity with their own laws and fake money, laws that are equally illegal to stealing a car or killing a human being, which is the New World Order's trademark and methods, blaming others for what they do themselves, to get off the hook.

People of the world need to unite and awaken to reality in order to terminate all existence of State, government, Kings and Queens, Papa (Pope) and the like as none of these are needed in your society. The future is very promising for mankind, but first each and everyone of you must be prepared to make the change you want to see in society. The first is to realize the above scams. More will come later. So be it.
