

SMART 5G AND LED ACTION PACK AND PLAN

This information pack gives an insight into the extreme dangerous situation we are in because of microwave warfare weaponry systems being deployed all over the country intended to harm and slow kill us with invisible radiation.

This pack gives those with no prior in-depth knowledge the backbone to set up and hold emergency meetings in their local community, at work, their childrens' school, housing association, etc. Schools and hospitals are extremely dangerous as they often have cell 'phone towers on the roof. Those working in harbours and airports need to know they are under extreme radiation attack and must act fast. Everyone needs to get involved and inform door to door, street to street in EVERY village, town, city in the country in order to save life.

There is no better evidence than showing those around you the readings from a Trifield Meter especially when used in a location that has active wifi which in addition has a cell 'phone tower on the roof, or 5G death pole in vicinity. Check the reading after the wifi has been removed. This will help instant.

FAILURE TO TAKE ACTION IS DEATH OVER TIME

This information pack should be used together with Sacha Stone's documentary: 5G Apocalypse, here <https://www.youtube.com/watch?v=ol3tAxnNccY> and Alex Jones' special 5G broadcast, here: <https://www.brighteon.com/56654081-2060-4639-9334-ec634cb113f6>

This pack consists of:

- Overview
- 3 articles:
 - a) the first covers what is going on (the stealth erection and deployment of warfare weaponry) with links to videos for further information and a list of action needed to be done in your local community.
 - b) the second covers how this is being deployed and who is behind it, together with the repeated list of action that needs to be taken in your local community.
 - c) a sketch for a real direct democracy model, without politics and the other societal systems that hold us in bondage today.

We propose the pack is used in the following way:

- **Send the first article out by email to all you know, your colleagues, all parents at your childrens' school etc calling for an emergency meeting and asking for assistance in arranging this.**
- **At the emergency meeting see the film 5G Apocalypse documentary and Alex Jones' special 5G broadcast.**
- **Follow this up with reading out aloud the second article so those attending hear the truth about how today's societal systems and politicians are being used to genocide us. This second article, and the third, should be sent out by email to all attending the meeting AFTER the meeting. This way they focus on what you say at the meeting, and can read articles 2 and 3 at home in peace and quiet.**
- **Immediate remove wifi and smart meter from the location where the meeting is held and set up work groups in your area to remove all life-threatening technology and inform others, so that the whole country learns the truth and takes action to save life.**

THE SMART 5G and LED genocide of mankind

This first in a series of 3 articles can be used as an information pack so that everyone without any prior technical knowledge can hold emergency meetings at their workplace, their childrens' schools and in their local community. The articles, in a 5G SMART LED Information and Action pack format, are attached in pdf form. Use them to save life, and watch Alex Jones' (InfoWars) special broadcast on 5G, linked below.

Part 2

<https://infowarriorsofnorway.com/articledetail/those-behind-the-smart-5g-led-genocide-and-how-they-enforce-it>

Part 3

<https://infowarriorsofnorway.com/articledetail/one-world-society-for-all>

3

SMART 5G LED Class 1 microwave warfare weaponry is being erected and deployed all over the world with the deliberate intent to depopulate mankind. Being marketed with phrases like *lightning speed* and *wireless revolution*, politicians and mainstream media worldwide are withholding the truth - that this is a Class 1 military microwave weapons system being deployed to depopulate humanity – for profit - despite the fact that this technology will kill them too – sooner or later.

Because mainstream media, ministers, politicians, city councillors and the telecommunications industry are all in collusion with one another – and withholding the fact that this is a microwave weapons system – most have no idea of what is going on.

It's important you realize that politicians are also criminal lawmakers that have ensured this lethal technology has been categorized as safe, and at the same time given themselves indemnity. High-end politicians are paid millions to lie, saying 5G is safe.

4

The most common devices in this weapons system are smart meters, all SMART appliances (therefore the push for 5G cell ‘phones); 5G; the new LED street lamps and all other lighting with LED technology/light bulbs; 5G death poles; "upgraded" cell ‘phone towers (to 5G warfare assault weaponry); traffic lights that radiate and scan you as you drive past; harmless-looking wastebins in towns equipped with radars and new manholes being made with a SMART device below ground. Wifi and all wireless devices are part of this network.

In areas where SMART 5G and LED is up and running insects are already dead, as well as small birds. These are the first to die – then pets - and after them it's just a matter of time before your organs too start to collapse and you develop terminal cancer. Small children are the most susceptible and many are already dying from rare forms of cancer - all caused by radiation. **Although people are already dying colluding mainstream media is hiding the facts.**

You need to know that transmitters are stealth being installed in all new electrical appliances - such as printers, wifi, wireless smoke detectors and alarms, the receiver box for your TV station, printers and game consoles etc. A test with a HP OfficeJet 7510 printer revealed that it emits radiation with peak onslaughts of up to 16,0000 kW pr m2 every few seconds - just like a smart meter - EVEN WHEN THE PRINTER'S WIFI IS SHOWN AS SWITCHED OFF ON THE PRINTER SETUP MENU. Anything above 200 kW per m2 is dangerous for your health.

The fact that radiating devices are stealth being built into household appliances, and the fact that you are being deceived, thinking that when you select "wifi off" you are "safe", should tell you how serious those behind this are in destroying your live and slow kill us.

These devices are deliberate being built in so they are inaccessible and difficult to remove unless you are a technician. In addition they are being inserted in such a manner that they are connected to other parts of the appliance, so that if you remove the harmful transmitter, it won't work at all. This onslaught on humanity is extremely well planned and coordinated at very high levels throughout the manufacturing industry. What do you think about that?

It's important you realize that smart meters (attached to water/gas/electricity) are the brain to these dangerous appliances in your home. They function as a war room joining all the smart appliances you have in your home together creating a network that intensifies their effect, harming you further. If you have a smart meter in your home it is vital you remove it now. The higher the number of wireless and transmitter containing devices you have in your home, the stronger the dose of radiation. The most lethal you own is your mobile 'phone.

What these devices have in common is that they emit radiation pulses,

extract oxygen from the air near them - making the air nearby toxic - as well as burn the atmosphere, and therefore giving credit to the false "climate change" and "CO2" propaganda lies - which is about slow killing mankind through reducing the oxygen levels in the atmosphere. Nature is dependent on carbon dioxide to produce oxygen. We need oxygen to live. Do the maths. There are already dangerous low levels of oxygen in the atmosphere.

The climate change is a scam, manufactured through the use of geoengineering weaponry so that those behind can steal more of our income through taxation (CO2 tax). Those who invented these scams themselves all own and fly around in their own private jets emitting huge amounts of CO2. What do you think about that? In addition to the geoengineering weaponry, the climate is now getting warmer as a result of radiation through the SMART 5G LED devices - allowing those behind - with the assistance of the media to proclaim "It's getting warmer!". Radiation combined with hot weather = best effect = kill off more people. Have you been told this?

You also need to know that these devices are remote-controlled and can be used as a D.E.W. (Direct Energy Weapon), allowing those behind the systems to "tweak" the levels of radiation from few, infrequent pulses to

extreme high density, for quick kill. It's possible for those behind to kill the population of an entire city within minutes, should they choose. A D.E.W. (Direct Energy Weapon) device was tested against a town in California last year (2018), called Paradise. The whole town, with its inhabitants, disappeared. All was turned into ash within seconds. This was

a test run for what they have in mind for us.

Especially targetted areas are shopping centre car parks, shopping centres,

city centres, traffic intersections, motorways, commuter roads, train stations, public transport, passenger ferry harbours, airports and cultural arenas – however the deadly SMART 5G LED lamps are being erected in every street! Hospitals are extremely dangerous because they already, insanely, often have numerous cell ‘phone towers on their roof, with 5G they are effectively killing their patients.

Sitting on public transport surrounded by people all staring at their mobile ‘phone screens is a dangerous health hazard. With 5G active all cell ‘phones are weaponized, slow murdering those addicted, who in addition are potentially murdering those around them forced to sit on the same train/bus/plane. Mobile 'phones and all wifi devices used on the body are literally frying us, as well as making us addicted, sterile and slow killing us. As this weaponry is remote controlled your mobile ‘phone you can be targeted, either to quick kill or send you levels that ensure you die within a few months - if you are a dissident - ditch your mobile 'phone NOW. You will know when this happens if your mobile feels very hot. Alex Jones, of InfoWars, in America experienced this recently, probably because he says the truth, and recent made an excellent broadcast about 5G. You can watch it here: Alex Jones' (InfoWars) 5G Special

Those behind this technology have for years brainwashed our young to believe in the climate change and CO2 scam, without teaching them the basic facts of nature = that plants need CO2 to produce oxygen so we can breathe = live. The vast majority of the young have succumbed to the Goebbels style propaganda of the 16 year old Greta Thunberg, whose parents intermingle in globalist circles, and receive millions to keep on promoting lies through their daughter that has Asperges. Do a quick search on the internet with her name and note how many globalist organizations are supporting and gloating over her. This says all.

SMART 5G LED devices are a remote-controlled weapons system that can be adjusted to target certain individuals or groups, quick kill the whole population within an hour or slow kill over time - depending on the chosen radiofrequency and density level.

In addition these technologies spy on you around the clock through cameras and microphones and steal your data (through your smart meter). Smart meters can be rigged to **triple or quadruple** your electricity/gas/water consumption and therefore give you a massive bill - when in reality you have used almost no electricity at all. In other words they are easy to hack - on top of radiating you to the grave.

Do you know what SMART stands for?

**Secret
Militarized
Armaments in
Residential
Technology**

<https://social.davidicke.com/index.php?/topic/637-mark-steele-5g-smart-secret-militarized-armaments-in-residential-technology/>

<https://stop5g.cz/en/tag/secret-militarized-armaments-in-residential-technology/>

SMART 5G LED technology emits harmful pulsating radiofrequencies day and night, whether switched on or off, giving you a sequence of seeming unrelated ailments that your doctor won't understand or recognize, but that are all signs that your organs are

slow collapsing. **When your doctor finally finds something he understands it's too late – you've got terminal cancer – with only a few months to live.**

Glastonbury Festival this summer was used as a testground for SMART 5G LED. Thousands immediately got nosebleeds, had splitting headaches, a sensation of their eyes and heads burning, stomach pains and numerous other ailments - all of which has been hushed up.

Thousands of staff attending the festival took sick leave because of

sickness due to the 5G radiation assault, combined with the LED lamps that were switched on, even though it was broad daylight. **This has been covered up by the 5G-colluding press.** Read the following testimonials and comments from Glastonbury.

 **Wayne Carr** ▶ STOP 5G U.K.

Turn the fucking 5G masks off,, my eyes hurt like fuck! And so does loads of other people's!!!!

👍👎 You and 11 others 31 comments

The symptoms listed by Jodie Taylor, below, are signs of radiation assault.

Michael Eavis, who rents out his land to the Glastonbury Festival each year, was warned about the potential SMART 5G dangers and advised to exit his contract with the telecommunications company EE. He was also informed that festival goers could sue Glastonbury Festival Ltd under the Companies Manslaughter Act 2008. Read the full text in to the right. Eavis' response was: "Oh nonsense, I am going to have to put the phone down."

Just spoke to Michael Eavis on the phone and he told me I was talking nonsense however he is going to look into trying to change things next year and BT are running it now not EE. I explained he had been lied to and could exit his contract using facts from the sciencedirect journal proving the lies and warned him that festival goers could sue Glastonbury festival ltd under the Companies Manslaughter Act 2008. I also warned they could break out in nosebleeds and skin burns at the festival and asked him what he was going to do if that happened. He said oh nonsense I am going to have to put the phone down

If the above were not serious enough, read below how technicians have been told to go out and "tweak" things so we don't "catch on" to that we are being radiated by not getting the "obvious" radiation symptoms like those who attended Glastonbury Festival. In other words those attending Glastonbury Festival were used as lab rats to assist the telecoms industry in fine tuning their weaponry so the kill doesn't "look like" it comes from them!

I have a contact in the telecommunications industry who told me he has been sent out to areas that have caused sickness such as nosebleeds, and the likes as you know all too well... they are to "tweak" things to make sure the radiation is just below the threshold Of causing any visible direct symptoms. To me this will make 5G an even more silent killer as they tweak it... no symptoms directly but over 25 years I'm Sure we will see them however by that time we are all Under their control! We need to act now !!

SMART 5G LED is murder by design. At Glastonbury the LED lights were deliberate switched on, despite the fact that it was broad daylight and sunny, because when switched on they emit maximum levels of radiation. LED lamps emit radiation whether switched on OR OFF.

Many are already suffering sickness coming from the SMART 5G LED streetlamps, often being erected stealth in the night, so those in the know can't protest. Read here how councils are avoiding all questions and concerns about the LED killer lamps. They now refuse to receive letters of complaint from the public. **Your local council has become the instigator of your murder.**

Jack Hammerhat I was also concerned so I rang my council office,when asked about the lampposts they hung up,3 times,on one occasion I was told "im not allowed to speak about this".then hung up.i thought the council had to explain to their people and answer enquiries! isn't that why **Mark Steele** went to crown court and won?? where is the eplanation for people like ourselves!!!

Liker · Svar · 10 t

Jack Hammerhat my bedroom has 5 times this amount of radiation as **Mark Steele** confirmed!!!!

Liker · Svar · 10 t

Jack Hammerhat between 3500 and 5000 I know I don't value life much but come on im being murdered slowly in my own home,i don't even want to sleep there I stay away

Liker · Svar · 10 t

People are already getting sick from driving up and down the new SMART motorways. It's incredible that those construction workers working full speed at building them, such as along the M20 (observed July, 2019) don't realize that themselves and their families will die from the technology they are erecting. Shame on you!

Antonia Visser I get sick where those poles are on in daylight on the motorway. I feel pinching when you passes poles who are on, and it drained energy. New thing is that poles are on when you have to stop by traffic lights. You cant get away from them for a few minutes.

15

John Kitson Very toxic levels of radiation

Liker · Svar · 21 t

Cathryn Hudson Wow **Mark Steele** those levels are crazy 😞 I travel by train alot & this explains why I find it so draining & I often feel agitated after long journeys 😞 did you know they have felled many, many trees along railway tracks the length and breadth of the country? Is this due to 5G do you know? x

Liker · Svar · 15 t

Mark Steele Yes it is

Liker · Svar · 5 t

The same applies to trains, where many trees have been removed, to ensure you more effectively get sick.

We have been duped to desire and become addicted to wifi and wireless gadgets that are already very harmful to all biological life BELOW 5G radiation levels. With 5G they ensure we radiate ourselves to death, unless we change our habits and destroy this technology - in addition to having to battle with the radiation coming from all the stealth weaponry being erected everywhere - but the young will suffer the most - they are the most addicted - and because radiation is invisible - and one doesn't feel anything - many will not change their ways - before it's too late. That's why we have to act now by assisting in the global awakening!

Lloyds of London does not insure SMART, 5G, WIFI or related technologies as they know these will harm and kill millions, and are not willing to pay out compensation for medical repercussions. The same applies if your house burns down due to a smart meter fire.

Lloyds of London is one of the world's leading insurance brokers. No insurance company will pay out when Lloyds of London says no. If this doesn't tell you something, what does?

<https://prepareforchange.net/2019/04/23/why-is-lloyds-of-london-excluding-coverage-for-5g/>

<https://smartmeterharm.org/2015/03/18/lloyds-of-london-excludes-liability-coverage-for-rfemf-claims/>

Remember! There will be no children tomorrow **unless we act now. If we don't they will die with us, or before us.** They are already been sterilized and slow killed by sitting in wireless classrooms. **Youngest children are the most exposed.**

Rolling your eyes in disbelief, sticking your head in the sand or going into shock from fear won't change anything. **FAILURE TO ACT RESULTS IN DEATH.**

As it stands today the police are being deployed to protect this annihilation technology despite the fact that they are not immune to SMART 5G LED radiation, and in addition carry TETRA equipment that draws radiation direct into their bodies - therefore they will die quicker. The day will come when they will have to stand with us and remove this technology - and save their lives - or die in service to the biggest criminals in the world = their bosses.

To learn about the perpetrators of this crime against humanity, and the systems they are using to enforce it, read Part 2. Below are immediate steps you can take to save your life.

Immediate steps you can take to save life:

1. Send this pdf/email/linked document to all you know and ask them to forward it to everyone THEY know and so on.
2. Set up a local activists group where you live and share this information.
3. Inform everyone in your neighbourhood/street/workplace of this horrible truth. They need to know to take steps to protect themselves.
4. Coordinate your local group to go door to door to everyone in your street/block. Get others to take the next street etc.
5. Hold emergency meetings in your village, town, city, where you work, schools, kindergartens and hospitals. Some of these are already under massive radiation attacks because of cell 'phone towers on their roofs.
6. Demand that schools immediately remove all cell 'phone towers and wifi and hold your children at home until this action is taken.
7. Crowd your city council with your demands of removing and destroying all SMART 5G LED technology weapons in your area where you live. Tell your politicians that their job is to represent your needs and desires where you live and not to interact and cooperate with big technocratic businesses to profit THEM.
8. If your city councillor or local politician(s) do nothing to remove, destroy and destruct (to melt) this genocide technology within one week, we need to take action and do it ourselves. This is not the time

to wait for everyone else to do something. Everyone must come together and set up a strategy plan for their neighbourhood to remove all lethal technology in your own home, streets and neighbourhoods before this technology remove us to the grave.

9. Get an emergency generator and share electricity with neighbours.
10. **FAILURE TO ACT MAY RESULT IN BRAIN CANCER AND DEATH.**
