

Why you must never vote

Most people have no idea what damage they cause themselves and their countrymen when voting.

When you vote, you give your permission to non-elected politicians in Parliament and government to do to you and your country as they want - which is exactly what they do - including stealing your country's natural resources and the profits from the sales of these, that YOU own jointly with your fellow countrymen!

Your given permission includes all their state departments, your country's Courts, police, military, CPS (child kidnapping services) and others in their systems to do to you as they please.

The reason they can do this is because all governments in the world have thrown their country's Constitution away, and replaced it with Maritime Law (piracy law) which takes away our rights, as Maritime Law is synonymous with "the winner takes all". In other words, pure piracy - allowing politicians and

political parties, government and state and their systems do toward you as they wish - which is the real purpose of politics, state and government, unbeknown to you.

You know they are using their fraudulent Maritime Law system because they have forced you into being an identity number, person number, tax number, social security number or title like MR, MISS, MS because then you are not a living human being anymore (according to them), and therefore no longer have rights within THEIR political and legal systems. This is why it's vital you always present yourself as a living human being, and demand Common Law. If you do there is nothing they can do to you.

The use of fraudulent Maritime Law (that the legal system = league of lies system, represent) is how they now can enforce the lethal SMART 5G, WIFI and LED microwave warfare technologies upon us in our private homes, local communities and cities whether we like it or not, want it or not or accept it or not. You are just a number or title, remember, and numbers don't have rights - IN THEIR SYSTEM.

When you vote you activate your own death sentence - and can start the countdown to your own execution. They can now do whatever they want to you - including killing you with these dangerous technologies - or send your sons out in THEIR self-created wars, or steal your children through CPS (Child kidnapping services) because you have given them **your** written permission to do so when having voted for them!

Voting removes your right to decide over yourself, your life, your future, as well as that of your share of your country's natural resources and profits from the sales of these. Your vote is a carte blanche from you allowing them to do exact as they want towards you, so hell, why should they keep their electoral promises once you've been foolish enough to vote for them?

Know that they can do that because you don't know that they do not use Common Law, but Maritime Law. These Maritime Laws ensure that THEY can write and pass laws that suit their agendas for power and wealth - and world supremacy - at our expense.

In other words, these criminals have replaced Common Law and International Human Rights with their own made up fraudulent Maritime piracy Laws to suppress and plunder us as they please - and get away with it - in their own COURTS, because their COURTS are just as criminal and fake as their monetary system.

4

The vast majority of politicians today are traitors to our countries and us. Today's politics is organized crime at high levels, with cooperating banks and their partners in politics dictating your life and economy in their favor.

Know that these people are criminals with no right to make up their own laws, their own monetary system or dictate us with their fake identity number system (legal name fraud) - AND THEY KNOW IT, which is why judges in their COURTS leave the courtroom once you claim to be judged under Common Law as a living human being. Their "bar" can just pass sentence on dead things = your identity number.

Because of all this, we have the right to defend our lives and rights, arrest them and try them

for high treason and murder in OUR courts where International Common Law and Human Rights apply.

The only good thing that can come out of the SMART 5G and LED weapons technology roll-out is that it reveals for all what a farce politics is, and what politicians and politics really stand for. These technologies also harm them - they are not exempt just because they make millions from forcing this dangerous technology upon us. This is why we need to stop voting for THEM, and instead set up a system to vote for us.

Politics need to be a control that works for and serves us what we need, as well as manage our country's natural resources on our behalf. Today's political leaders are amongst the worst criminals in the world. They are highly paid actors, lying to you through their teeth every day, pretending each party has different agendas, when all of them serve the same dragon - the Vatican, European royalty headed by the Queen of England and the banks.

All political parties behind the scenes are owned by the same protagonists: the triad of the Vatican, European royalty headed by the Queen of England and the Rothschild family with associates in banking, finance and commerce.

Within this rogue triad are several factions of rogue elements who serve their own pockets and desires. These are the very ones who want you dead with SMART 5G and LED technology, and can keep on harming you until we stop voting for them.

Right now, millions of people worldwide are awakening to the reality that politicians, bar a very few, do not care or even work for us, do not represent us, do not follow through their promises to us, and have never had anything but their own interests in mind. They are criminals within freemasonry which is the tool the aforementioned triad use to dictate policies = control us.

Now you know that politics and parliamentarism are criminal systems set up to rob and plunder us and our countries and strip us of our rights. The word "parliament" reveals

exact what Parliaments' intentions are: parler et mentir (French) to speak lies. This is what Parliamentary politicians do all day long, while patting children on the head and waving flags to appear "one of us." That's how sly these devils are.

7

The bottom line is politics, political parties and politicians stand between everything we need and desire including real freedom. The whole system is just as morally bankrupt and as antiquated as those behind the systems.

We need to discard politics, reassert Common Law, join worldwide to rid ourselves of these yokes and join hands in bringing in real Open Source direct democracy - without the self-appointed bosses of Vatican (with their self-invented GOD in order to suppress, mind control and tax people worldwide), royalty and bankster gangsters with their fake monetary and legal systems. These are all self-appointed bosses, parasites, literally vampires as they, having sexually abused our children to death in their satanic rituals, then drink their blood and eat their flesh. And yes, it's the "friendly" CPS (Child Protection Services) who provide the children.

Today we find ourselves up against worldwide genocide because of microwave warfare technology deliberate being rolled out to kill us, by the very triad that you keep voting for through their political parties and politics!

People have to wake up and see reality. Stop adoring Presidents and Prime Ministers like Roman Emperors, which in reality is what they represent, and work for, as the whole system is run through the Vatican in Rome.

All over the world there is a freedom movement growing, to get rid of the globalists, but this is just step one. We have to get rid of the whole cancerous system that allowed what is happening today to occur. And that means ditching royalty, the Vatican and the banks. These are all, at top levels, mass murderers, satanists and pedophiles. Frankly, why don't we become our own government, and decide our own future rather than supporting these mass murdering parasites and pedophiles by setting up real direct democracy?

Today we live on the precipice of a potential great future, or the end to humanity as we know it, and Donald Trump and other honest leaders around the world are the ones in dire need of your support to save YOUR and your family's lives and future.

9

Donald Trump in late 2019 is about to take down the heads of the international corporate mafia including Presidents and other high-ranking politicians who collude to ensure the globalists always get their wars and their trophies. This is why American globalists are panicking and fighting for their lives, trying to have their real elected President impeached, even shot, for doing a great job getting rid of the real problem in American politics = globalism.

Removing the globalists is the first step on our way to real direct democracy. But we can't stop there. So how do we get there? As we see it, there is only one choice. The SMART 5G and LED genocide will one day force us to take action and literally take down these people and their systems before they kill us. After all they want us dead.

Another option is to combine that with changing the systems from within, but then each country will have to set up a movement for real direct democracy and have so many supporters for it, that they win by a windfall. Honest people must make it very clear that their sole goal is to dissolve Parliament and politics and replace with the world's most fair government system: real direct democracy with all of us deciding our own future together.

This direct democracy will have a service system giving us what we vote to have in our local communities where we live. This will require a 55% majority of voters to grant us what we desire in our local community.

All good men and women in every country in the world need to set up an alternative ballot and voting system to ensure we get the representatives we need, willing to work for us.

Donald Trump has recently talked about how his actions from now onwards will be transparent. Robert David Steele and many others already talk of the need for Open Source government.

InfoWarriors of Norway recommend we take it one step further - return each country in the world to its rightful owners = we, the people.

When the majority realize how we have been deceived for hundreds of years by a minority's invention of fake societal systems to control and plunder us, honest people will not have difficulty in seeing the massive benefits this brings us.

In an interim period while we wake up everyone to the benefits of real direct democracy, register your vote under Common Law and International Human Rights Charters, so that politicians not keeping their word can be brought to justice in OUR court of law and sentenced to x number of years should they fail to deliver.

So, remember! Never vote for today's political systems of globalist-controlled political parties headed by criminals taking your rights away from you.
