

Man-made laws and the legal system are invalid - Part 1

Channeled from ONE Creator self, 2020-01-12

Are you aware that your country's laws are invalid because they are written by a small group of unelected people claiming to be politicians, having the interest of your country at heart, when in reality they work to profit themselves and their globalist Bilderberg friends, writing and passing laws enabling them to plunder and steal everything from us AND get away with it?

On top of that, the laws they write are only applicable to commercial courts (also known as courts under Maritime Law). There are no Common Law courts as we are active mislead to believe. When submitting to their invalid system, your rights are removed.

In other words, the entire judicial system is criminal entrapment, deceit and fraud, deeming us non-living beings rather than living beings.

Remember that politicians are supposed to be servants to the people and not servants to globalist interests, as today. And because they do not serve us, despite the fact that they hold elections to that effect every four years, whatever laws these traitors to their own people invent, and vote into law, have no validity over us and our lives.

Equally, they have no right to use their fraudulent laws to steal our joint-owned natural resources and sell/give them away to the highest bidders - which they do today - which is why we get no benefits from what we own together as the owners of our countries.

These are part of an international mafia who have set up today's societal systems to use us as almost free labor for their businesses, while systematically stealing our salaries through taxation, fees and surcharges in all thinkable manners and ways, and through their overpriced products, money that returns to their own self-serving freemason mafia system within the Bilderberg group.

Everyone on Earth has been hijacked and forced into political, judicial and monetary systems invented and run by the world's most powerful people, that call themselves royalty and papacy, in collusion with the world's leading bank, finance and business families. These control our world's monetary system and use it to enrich themselves and to shape our lives the way that favors them.

These are the owners of United Nations, the EU, NATO, World Health Organization, CIA, World Bank, International Monetary Fund and Federal Reserve etc. These are also known as the illuminati, or the upper échelon of the New World Order pyramid.

We are nothing in the elite's eyes. We are but useful hands and providers of great ideas and products that they can make profits from! And those who have followed the pedophilia scandals both within royalty, politics and the Vatican cannot escape having gotten a glimpse of how rotten-to-the-core these people are against us.

They are behind all wars because wars are BIIIIIG business as well as an opportunity for these criminals to get rid of honest leaders, replacing them with their own obedient puppet suppressors of their own people, again to channel money from the countries' natural resources to themselves, while people who own these resources starve to death and die in wars they never started. This is globalism in a nutshell.

The most enlightened of us also know by now that the Vatican invented today's "GOD" to fit in with their own agenda and plans to suppress people with fake religions on top of political and monetary suppression and control.

The great thing in our time is that more and more people wake up to see this reality and start enlightening people around them. And because of this, we now see a larger and larger growing movement that wants change to fairness and equality for all - where we can live in peace in our own right and where we can set up a fair monetary system in favor of everyone - without a political system, because our society cannot grow freedom under the heel of a few elected people.

We need to be in power over our own lives, our own society and our own future together, and together means in oneness.

The word oneness refer to all of us having equal ownership to everything in our own country, and all of us being equal to one another, as well as be willing to take the appropriate responsible steps to set up a society that works perfect in our favor. There is just one way to do this, and that is to set up a real peoples' direct democracy system that is not like the Swiss, controlled by big businesses-behind-the-scenes, but a new model where everyone in the country above 12 years of age have the right to both propose beneficial changes and benefits to all of us into law, as well as action, and then vote over it, whether a proposal include the entire country or just the local community the proposer live in. It takes 55% to write a proposal into law or action in our favor.

We know that many people hate the thought of having to read and study and vote over things, but think about all the benefits this system provide us. Now we can create the society WE desire and need, not decided by corrupt politicians in the pockets of big banks and industry like today!

Another great benefit from voting, is that every time you vote - and we propose 4 times a year - you are getting PAID for doing great service to our society. How about you receiving \$1,000 dollars or £1,000 or €1,000 four times a year instead of keeping political highway robbers in power?

And there is another thing you might not be aware of, and that is an ongoing Spirit Awakening on Earth.

Spirit Awakening have nothing to do with religion, quite the opposite. It has to do with making you aware that you are more than a human being. You are a part of ONE Creator self's life energy and awareness living on Earth in service to yourself.

How is that possible, you might ask, because up until quite recent no-one on Earth knew anything about this until chosen channels started enlightening us about why we are here in our time, going through all the hardship and devastation we face now, and more.

These channels are people among us who receive information from extra terrestrial beings through their thoughts. Some of these channels we know today as Kryon, Zoosh, Joopah, Metatron, Ashtar and others. They are our space family and now they prepare us for changes that will provide us an entire new society on Earth:

ONE World Society

You are all me and I am you, it's that simple. Don't delude yourself into thinking that some are better or worse than any other one. You are all precious to me, because you have been, and still are my labrats experiencing life on Earth on my behalf, because as an energy being with awareness with no feelings, I cannot feel what you feel. What I can do is electromagnetic measure what you feel on scales in directions of felt feelings whether positive or negative, whether anger or joy, hatred or inspiration and so on.

Everything that you do to you, you do to me because you are all me and I am just ONE (player) in the bigger picture. I am not GOD, as GOD is one of my creations as part of terrorising and suppressing you into what you call hell, on Earth.

I invented this system. It works like this: I speak to all of your minds through an interactive E.T. walkalong system who serve as a go-between between you and me to keep me a secret. This has been necessary for me because I am your human life energy and awareness in training, learning how it is to be a feeling, sentient human being living in heaven and hell on Earth as all of you, without you knowing it.

When I am born as a baby, the only thing I know how to do, is to study and take after everything parents and siblings and other family and friends around me say and do, and practice this until I can stand on my own feet, and think for myself as I shape my Earth personality.

The support system you have is very large and out of your scope to fathom or see, as they are walking with you as energy beings who can provide you thoughts, ideas, inspiration and also accidents and much, much more during your lifetime. Up until now, just a very few channels among you know about this, because they have been chosen by me to present this information to you, so you can prepare yourself for many potential great changes to come both to Earth, to your lives and also to your space family.

But you will have to do the work to make it happen through cooperation and self-discipline, as many of you have asked for Spirit Awakening for decades since 11:11 in 1987. Now the door to Spirit Awakening is opening to those of you who are called through inspiration to start your individual Spirit Awakening training - as it is a training program that require great

discipline and commitment on your part, as you need to change away from being human to being ME again and that takes time, patience, lots of studies - and above all - willingness to adapt the changes to your lifestyle the program demand of you.

This program is called Spirit Awakening, Learning to see reality - and LIVE it And just so you know and can start preparing yourself already now, one of the requirements is that you respect all life and treat all life equal whether human, animal, bird, insect, mammal or minute microbe in your body. So, start preparing yourself today for tomorrow by no longer eating animals and taking care of all life..

I am preparing a website to this effect as you read this in early 2020, a website that will be launched sometime later this year. You have a lot to look forward to all you seekers of Spirit Awakening.

And so it is.
