

Why we need direct democracy

There are no governments, only private-owned corporations posing as governments that are owned by the politicians themselves and the owners of politics and the entire state system (royalty, the Vatican and the banks with other business interests). Politicians use the political and state system to steal our wages, called taxes, and then transfer it through the state and onward into their private-owned companies, in other words into their own pockets.

1

It works like this: At the start of each "crisis" that they themselves plan and agree upon in advance, such as a war, a "disaster" created by weather manipulation or a "scary virus", they set up budgets with fancy names like "Emergency Fund" for monkey, aviary, rat, papaya, onion "flu/virus" or other plandemics to money launder your money (taxes) to go through their newly erected "Emergency Fund" or "Budget" to which they have allocated huge sums of money (i.e. theft). From this fund/budget the stolen monies are then distributed onward into their own companies. In the case of a "disaster" they set up short-lasting businesses on a project-to-project basis, advertised using attractive names such as "rebuilding" after the disaster. Rebuilding = destroy with intent and then "rebuild" = because YOU have to foot the bill.

These same people that plan all wars and disasters also own and run the media and medical industry. They get the media to brainwash the population of each country to be scared and believe war is coming or an annual scary "virus" or the "end of the world" through climate change to get them to hate a chosen enemy or be scared of a non-existing threat - that they create entirely themselves. Add to this that a large part of the western medical industry is built upon lies (the Germ theory).

These crafty politicians have already stolen our country through the set-up of the Bretton Wood Agreement in 1946 stealing what was our joint-owned country, its resources and services and turned them into companies that THEY now own, while making you their tax-paying milk cows bringing money constant into their accounts. Perhaps you had a

National Health Service previously and natural resources and now they are all privately owned? In addition, you have to pay twice. Why do you need to pay for health insurance when they have already stolen your taxes and claim this money is used for running your country? Does this add up?

They swing their scare propaganda from project A to project B and then back to project A or C, according to where they want the money to flow, like wars to steal oil, all the companies involved in money laundering for the "climate change" like the windmills that destroy nature and the sun panels that have frequencies that damage your health over time, create more heat and assist in their machinery-manipulated climate change. Add to this today's plandemic!

Politicians sit together to invent and write laws using their fake Maritime Law system where they give themselves the right to whatever they fancy - that suits them and their controllers (the New World Order). While they write these fake BILLS, ACTS, POLICIES and MANDATES they set up the ear-marked, massive budgets as described above (stolen tax-payers money) to go towards these "emergencies" like Haiti Disaster, Climate Change, Clinton Foundation, Corona Emergency and the like. They use the media (brainwashing) to make many of you pay twice - so many are so effectively brainwashed that they voluntary GIVE away a percentage of their own hard-earned wages monthly to so-called charities that behind the scenes are owned by the same globalist players.

These "charities" produce fancy brochures that claim your donation is going to support their self-created disasters with the building of orphanages when the children are kidnapped and sold into child slavery and their own pedophilia rings - and the money going into the pockets of those who put the disasters into motion! Follow the money!

Once the "disaster" is in full swing they provide "solutions" that transfer money to their own companies where they use Contract Law, part of their fake Maritime Law system, to set up money-making contracts for

themselves (they own all sides of wars and disasters etc). This way the money just keeps flowing into and within the same circle of friends! Isn't that great?!?

And see how quickly they have their products lined up for every disaster! For example, today's pandemic fraud in the form of masks, the plastic dividing walls in the shops, the stickers with the "Keep your distance", the tests and the vaccines, the respirators, the numbers killed (they earn money off of the Death Certificates which are interconnected with their fake monetary system) and the doctors and nurses are all paid commission for killing us (without being held accountable because of their fake Maritime Law). Nice, eh?

On top of all this, hospitals never focus on giving you nutrition or tell you how to look after yourself, but focus on buying in the latest, newest and very expensive equipment because **this is a great opportunity to money-launder the population's money through the above-mentioned Contract Law.** Hell, they can't patent natural food, can they? Look how they always buy in hospital equipment that costs millions, like scanning and radiation equipment, that guess what, harm and kill you - over time.

In Germany and other countries, where they force you to pay Health Insurance, which is 100% theft and has nothing to do with health, a quick look at the policy contents shows you their intentions = to kill the population with cancer treatment = give you cancer by design. All cancer "treatment" is covered in these policies, as well as all those heavy-metal and poison-filled vaccines and other methods that kill you, for their profit over x amount of time. Great, isn't it?

Those benefitting from the millions and trillions behind the scene are pedophiles who sacrifice children and drink their blood in front of live camera so that their controllers have evidence of their loyalty to this system and can use these videos with top politicians sexually abusing and then killing small children to blackmail them into submittance to follow their orders (of the royalty, banks and the Vatican with their

insane technocrat associates that own and run the entire system). This insane system that is run by generational satanic pedophiles that sacrifice children and drink their blood in occult rituals are the owners and controllers of the entire political, state system, monetary and judicial systems.

Have you read this far, you now realize that government and politics is organized crime at the highest levels with politicians their frontline agents. You know this system by the word "democracy". The word democracy is put together between demo and cratia which is *people rule* but it says nothing about who these people are and what they represent. But we now know that democracy is the hideout for the worst criminals on the planet.

We are brainwashed over many generations to believing that this political system of "democracy" works in our favor and that politicians work for us when they don't - they work to rob and plunder the population on behalf of the system's owners who have stolen your country from you. Politicians commit high treason because they claim to do something they do not - to serve you and represent your interests - this is misrepresentation.

And this dear reader is why we need real direct democracy.

Conclusion:

1. Politics was invented to ensure nothing of any good ever comes to the people.
2. Politics is a method of controlling, suppressing and plundering the population posing as a joint-owned service center providing the population with jointly-used services when in reality it is used for stealing the country's natural resources that the population owns jointly, as well as steal the profits from the sales of these resources, and transfer what should be joint-owned and run services into their own private companies.

3. Politics is organized crime. Politicians commit high treason through misrepresentation because they claim they work for and represent you and your country when they don't.
4. The easiest way to get rid of today's freemason-run corporate political society control system is to replace it with a real peoples' democracy system rooted in International Human Rights/Common Law.
