

Today's matrix and why we need Common Law

If you vote, it doesn't matter which established party you vote for, as they all represent the same world ruling elite's interests, operating under corporate maritime law – a modern version of the old Pirate Law (the strongest rule and take all), established by the British navy everywhere they sailed, attacked, killed, raped,

1

plundered and established laws that enslaved the people as subservient working slaves belonging to, and owned by the British Crown. And whenever local people retaliated and attacked British ships to defend themselves, "they" became the pirates in the history books, when in reality the real pirates were British royal warships.

Nothing much has changed since then, when you look at how today's modern globalist pirates have established maritime law ashore (on land) through something as simple as flying the maritime flag from masts on every building where new laws and regulations are being written and voted into law by, and in favor of, the New World Order ruling elite and their colluding, treacherous, national corporate-political freemason partners-in-crime against their own country's living men, women and children?!

Today the world is controlled by a masonic warfare platform put together by ancestors of today's so-called illuminati families (the Vatican, royalty, later joined by key banking families, and more recently technocrats or other select invited) to suppress and control mankind, remove our rights, steal the world's joint-owned natural resources, and make us work for free as their work slaves.

We work for free because they create the money, own the printing press or today just type digital numbers into computer screens, and they make us pay back our wages in the form of taxes - to them - who run and own this system. In addition they have stolen what is rightful our's - the world's natural resources that are joint-owned by all of mankind in equal parts - and make us pay for what is rightful our's: oil, gas, diesel, electricity, water etc - making huge profits from doing so. This theft of our natural resources and their giving away of these to their Bilderberg friends they call "con-cessions" = "the assignment of property to another entity" *by deceit*. More about "con" words later on!

Worldwide freemasonry, with all its different names, including Rotary, Lions, Odd Fellows, Chambers of Commerce and the like, are the Vatican, royalty and leading bank families' private worldwide army carrying out THEIR orders in exchange for financial favors and indemnity - that's right, those within THEIR system cannot be prosecuted - in their system - or if they ARE prosecuted, it's pure theater in a prearranged courtcase between freemasonry buddies to dupe the public - resulting in only a month or two in prison - so we keep on believing in the judicial system (just like we keep voting for politicians and therefore maintain tyranny). Innocent people - who have committed no crime - are often put in prison for years - should these freemason devils want you out of the way!

The lower grades of freemasonry provide a positive front, often photographed, for example, in the local newspaper giving away money to "good local projects" (that incidentally cost them nothing - just a 'phone call to the bank - it's not difficult to arrange when you're in this system and they can just arrange to type some numbers into your bank account), while those higher up, who have proven their loyalty by having sex and killing children live on camera, are placed in positions of power or influence, to ensure the system always maintains power - for its owners.

Freemasonry is the permanent waging of war against the rest of the world's population on behalf of its owners: the three sides of the triangle of the Vatican, royalty and key leading bank families, joined today by select other billionaires that together make up the cooperating corporation - today's One World Corporation - giving them ultimate power and wealth. At higher levels it is also a satanic, pedophile, sex-and-death cult posing as a local do-gooder.

Statism, the judicial system and politics are satanism in action - serving the generational satanic families running and owning this system. These use dualism and inversion to hide reality, with a positive front outward to dupe mankind while they hide the dark side: pedophilia, mass murder of children and all forms of organized crime. This same opus morandi (methodology) is used by their "well-known and trusted" private-owned corporations posing as "humanitarian aid" such as United Nations, International Red Cross, Save the Children and Amnesty International just to name a few. Add to this the Salvation Army, in fact all organized religions - all of which hide pedophilia, murder and child trafficking behind their "decent façades".

This masonic warfare platform was put into place in the time of the Roman Emperor Justine, as an all-encompassing societal control system and is still

running the world today. The Roman Empire never ended and the bible says it all: edited countless times to suit the agendas of the Vatican to hide the truth about mankind's real history and to acclimatize us to living in a world divided between

masters and slaves, full of strife, warfare, disasters, multiple wives, death and child sacrifice etc - all desirable elements in New World Order Hollywood productions.

This stealth Vatican-controlled warfare platform is called WAR-CASTLES and uses the following tools:

Military

Freemasonry

Media

Postal system

Religion

The Medical Industry

Fake monetary system

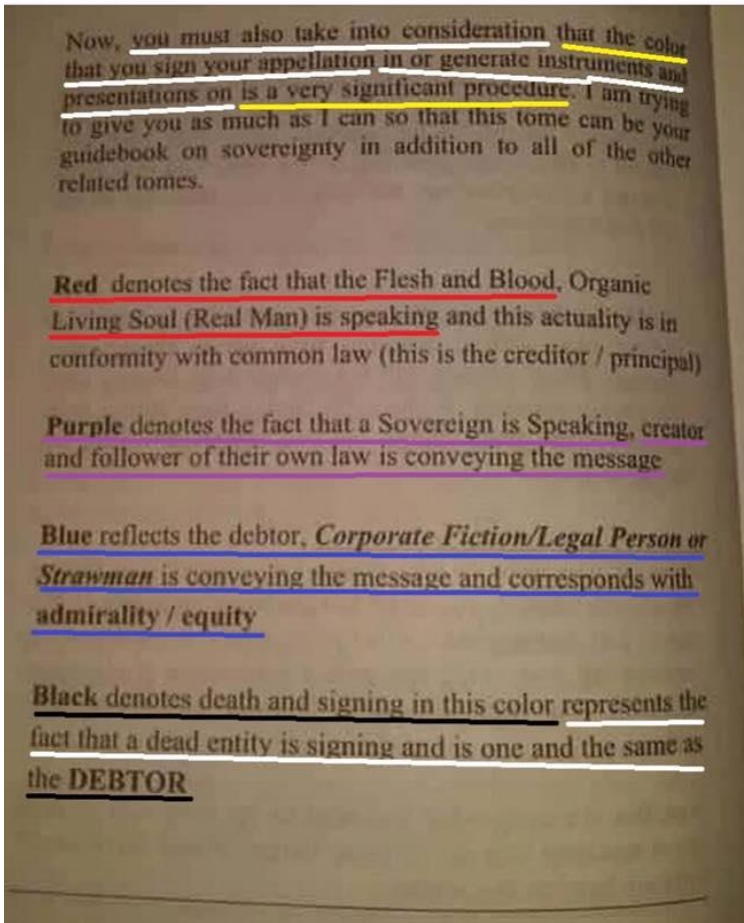

The corporate globalist-political run state system under maritime law

The legal system with its trickery language of "legalese" (league of lies) used to rule mankind through invalid legislation that is not law, but RULES, CODES, REGULATIONS. ACTS and STATUTES invented for use on PERSONS (dead entities) within their MARITIME LAW war platform. And now they're using PROTOCOLS as a rewrite of murder to get doctors to murder you!

They had to invent a law that could enable them to surpass the laws of the living man, the living woman, the living child in the living land, on the living water in the living air and space so they could do to us as they want. That law is Maritime Law.

Less well known is that the medical industry is warfare, the Vatican's Ministry of War - and the modern form of the crusades, joined by the Rockefellers in the early 1900s. It's their depopulation-for-profit department - no longer limited to slaughtering people in the Middle East with the sword - under the Knights of Malta, but today, in 2021, every man, woman and child their goal - with the modern sword - lethal injections by syringe - but it's still the same Knights of Malta - just look at the symbols - the Red Cross, St John's ambulance - just to name a few.

WHY THE HELL DO YOU THINK THEY INSIST YOU SIGN WITH A BLUE OR BLACK PEN?? NO!! ITS NOT BECAUSE THEY GOT THOSE COLOR PENS ON SALE YOU DOLT!!! LOLOL.....SHARE

If you would like to know more about the Vatican's murder-through-syringe industry that goes all the way back to the 1600s, watch this video. It has been removed countless times from the internet. Start at 07:02 to get the real action!

An urgent warning: When you go to hospital the first thing they may try to get you to do is fill out and sign a hidden contract where you give your "signed consent." In doing so you give your permission to the contract holder (the hospital's employees) to do to you whatever they want. This is identical to the consequence of voting, once you have voted, politicians and political parties can do to you

and your country as they wish, because when you voted for them, you gave them your permission - but you don't know this - are not informed of this - and have not agreed to this.

You can also risk being killed if you become an organ donor, because you if you do so you gave them your "signed consent" in advance, and should you later end up in hospital for something insignificant you risk getting killed for profit - especially if you have a rare blood type - or sought after healthy body parts, giving corrupt hospital employees a fortune - just like the huge incentives they are getting today in to kill us! And not only that, now murder has been reworded as "protocols." with doctors being ordered to "following protocols" and the protocoll is to murdering patients! Doctors in hospitals don't work for us, but for their CEOs!

Another variation of contracting entrapment is the airlines' Landing Form that they want you to fill out today, in these COVID-times. If you fill in the landing card, you hand over your rights without knowing it, giving them permission to do to you as they please in their jurisdiction = the airport. The

airline Norwegian, asks you to bring a blue or black ink pen with you to sign their landing card. Blue ink represents Maritime Law, black ink the dead, but red ink they don't ask for - because in their system red represents the living man of flesh and blood - they always have a way out for themselves - so if you see someone on the plane using red ink filling out a landing form you can be sure they're a freemason! This is why red ink pens are difficult to get hold of today. These are just a few examples to show you how well thought out, planned and encompassing this system is.

Filling out a landing card can result in PCR tests and potential medical kidnapping ("quarantine") that you yourself have to pay for, so don't fill one in, stand your ground and declare yourself a living man, woman or child under Common Law.

In Norway lawyers pressurize you to fill out a form, a contract, saying it is their terms for working further with you, in other words a hidden business contract. It will ask you to write your name in CAPITAL LETTERS, your corporate fiction, not you, and ask you to fill in your PERSONNUMMER, (PERSON NUMBERS). The moment you fill this in you no longer have rights. Do not do it. Lawyers cannot help you. Instead look into Common Law and learn your rights!

The corporate-political freemasons running today's societal control systems know that they have no right to force another living human being under God to test, vaccinate, wear a mask, or prevent us access to food in the stores, because that is manslaughter punishable with death, and that is why they do their utmost to force us voluntarily.

The aforementioned masonic warfare platform was invented not only to control, conquer and plunder mankind, but to defraud us of our natural Creator-given birthrights with its invention of Maritime Law - which has nothing to do with the living man and woman, but operates through trickery, entrapment and deceit.

So what are our Creator-given rights?

It is crucial that you know that *all sentient, feeling, thinking, living life are protected under Natural Law = The law of the Living Land, The Living Air and the Living Water (L-A-W), as well as the Law of the living man, the living woman, the living child and the living domestic mammal animal under Law of One Creator for Earth, better known as Magna Carta, today known as and referred to as International Common Law.* This is why it is important to

register with an international Common Law Court as a first step to protect yourself.

The church is heavily involved in removing your rights - after all they invented this entire system! Just look at their occult rituals of baptism (water = Maritime Law) and confirmation (in reality hidden trickery where youths agree, without knowing it, to **conform** to being a PERSON in the Maritime Law system). And look at the words used to describe churches' architecture,

midship and nave. Many Scandinavian churches have model ships hanging from the nave - telling you all. The Church was later joined by its partners-in-crime of the state and banks with the creation of the Birth Certificate and PERSON/TITLE FRAUD. We have been manipulated through language for so long that most now believe the word PERSON is the same as a living man, woman and child, in the same way most think the state and country are one and the same thing. All churches except a few independent churches with pastors, are Vatican churches, no matter what "branch" they call themselves.

At this point you will have noticed that a lot of words mentioned here have "con" in them. Why? This is because the fraudulent legal system uses language manipulation to change the message of words in order to trick the living man, woman and child to agree to the removal of our rights and defraud us on multiple levels - in all our meetings with this system. Banking and judiciary use these words very frequently, here are some samples: contract, con-vey, con-vict, con-stitution, con-stituent, con-cession. Con says it as it is: a con, trickery, artificial, deceit. Note the word "con" in eCONomy! The use of legalese is also internal signalling between those in the system to say "now we are setting up these fools."

The word "con-sent" is frequently used but misunderstood. It means "sent a con". When you say "I do not consent" you say "I do not send with trickery". This is not the same as saying "I do not accept" or "I do not agree".

As well as registering yourself with an International Common Law court, another first step to protect oneself from globalist puppets such as clown posing as police or law-enforcement officers or other corporate agents

(employees of a private-owned company) trying the entrapment game, is to remain calm and non-threatening, and stand your ground. There is nothing they can do when you claim yourself a living man or woman protected under international Common Law! And if police or other officials get too pushy, remind them that they work for a private corporation, and that no employee (agent) representing a corporation has a right to dictate or force a free living human being to anything! And record everything with film and sound, because if there is one thing these corporate law-enforcement officers hate, it's to see themselves as thugs in the aftermath of events.

And remember, No is no. Don't wait for their permission to walk away after you have said "No". Say a firm "no" and walk away looking straight ahead of you, not towards them or look them in the eye.

And just look at how they are using young, inexperienced people in corporate police uniforms with no knowledge of real human laws to pester, suppress and make money off of us with their fake legislation (Mandates and Acts etc) made up by the self-appointed, non-elected ruling elites' political puppet lawmakers! These young people are useful idiots for their covidocracy fraud! (covid-idiocy-bureaucrazy fraud!)

Today we are trapped into their fraudulent corporate system at birth when they force their creation of the fictitious identity of the CAPITALIZED name on our Birth Certificate in order for them to make money off of us as well as making us the capital security for their fake monetary system.

Their political system ("democracy") is another branch of this warfare platform, presenting enslavement as freedom with multiple parties posing as valid alternatives - when they are all controlled opposition.

The state is the unlawful occupation of your country on behalf of the owners of this MASTER-SLAVE system - without most working in the state having a clue about it. They always operate on a "need to know" and "have to know" basis, thus able to use the blind to remove the rights of, and plunder their fellow countrymen, while believing they are doing a "good job".

Each country's STATE is a private-owned CORPORATION and part of the Vatican state. That is why each country is an (e)state of the Vatican State, a corpus ratio (body part) of the CORPORATION.

The Vatican-invented GOD (Grantor of Dominion) was invented to give the Vatican a right they do not have to rule over everyone on Earth - our "souls". This is why we have "soul diers" = soldiers - who do not protect us - but the

corporation. The word sole, in English, is the bottom of our shoe under our feet - and has the same pronunciation as "soul," revealing what the Vatican really thinks of us - we are to be trampled on, the lowest of the low. The word rule - points back to a ruler - and a ruler is always a self-appointed ruler, never elected by us! The ruler writes his or her rules to suit him or herself! Likewise an author is someone inventing and writing fiction that political authorities can use as laws and regulations in a country. They can write and legislate anything they need and want to accomplish their mission of stealing our money and suppressing us. This is exact what corporations posing as "authorities" do!

The game of chess tells you all in plain sight. It is strategic warfare with all the masonic warfare platform's owners and participants present, the knights, the bishops, the king and queen, and us, the pawns in the game AND the game. The obsession with black and white is obvious in the entertainment industry, and just look at the floors of freemason lodges, mansions, large churches, cathedrals and public buildings - all showing you the truth of who owns that building and what they really represent. And what about police uniforms.

Police, politicians, lawyers, judges and all others in the Maritime Law system are groomed in how to use their body language effectively to make you believe they are superior to you and intimidate you. Their formal attire or uniform is also to persuade you they are valid. They are well-trained in entrapment and manipulation techniques to fool, trick and intimidate you into believing they have a right and power over you that they do not have - to make you submit = be under them, by handing over your

authority to them, thereafter allowing them to decide over you. This is why, in English, you should NEVER say "Yes" to the question "Do you understand?" if talking to anyone in this system. Translated into real English this sly question is: Do you agree to stand under my authority?

They succeed in all this by using intimidation combined with your lack of knowledge of your rights, the above facts and your fear. Unfortunately we are all brainwashed over generations to "trust authorities" having repetitively been told: "Trust me, I'm a doctor", "Trust me, I'm a politician," "Trust

research" "Trust science" with the underlying "We know better, shut up and obey." We can trust doctors and nurses working with real health, who say the truth or lawyers using International Human Rights Law rooted in Common Law, but not health workers that blind follow orders for profit and lawyers using Maritime Law!

Those working for the masonic control platform reveal their allegiance through their use of signatures.

Signatures = sign away responsibility. A sign is not an autograph = an easy to read full name, but a squiggle that cannot be matched with a specific living man, woman or child. Signatures are used to avoid responsibility - to detach oneself from one's crimes. All mainstream

doctors are part of this system - that's why they have something called liability. Liability = lie able = able to lie - and that's why they can't be sued - they are above the law - in THEIR system. Lawyers, judges and politicians also use signatures - though they won't admit the reason why if you ask them - after all, they have made their oaths - but not to us! Many politicians won't even sign documents any more. They know they are criminals, committing fraud and responsible for multiple crimes against humanity. This is why it is military courts - using Common Law - that put Deep staters, people like Bill Gates on trial (see: realrawnews.com).

Those who work in licenced, chartered or certified trades, state employees, in the finance and legal world or all agents of CORPORATIONS are en-corporate-d traders, including enCORPored politicians, making their oaths to this system - and not us. Ask yourself what licence really says = lies sense = it makes sense to lie. And who gives these licences? And what are THEIR motives and agendas? Why entangle yourself in their lies and rules when you can start up, or move your business to Common Law and avoid their lies-make-sense no(n)sense? For example, you can start a business providing real healthcare and health advice together with doctors and nurses registered in Common Law, who have woken up and for health, such as is now happening now in Britain? See [Common Law Court](#) or similar in your country.

Or why not gather earlier corporate police who have had enough of corporate political tyranny and want to join us, the people, under Common Law as deputized police officers in a sheriff service who can deputize whoever wish to assist the sheriffs in crimes against humanity? Follow the great work of [Sheriff Richard Mack](#) in America who is setting up a system akin to this

where everyone in the country can voluntary join as sheriff deputies. Why register a business in THEIR system, when you can operate outside of all their lies, paperwork, rules and taxation by trading direct with other living men and women by registering your business in Common Law?

And don't forget today's direct democracy movements. These need to cooperate in creating a model worth supporting within Common Law outside of corporate Maritime Law-controlled parliamentarism, where both members and the organization are rooted in Common Law. The more we are, the stronger we are!

Police or other agents of this system try to charge us at any opportunity. Let's look at where the word "charge" comes from. Originally a military term, it describes the moment when two opposing armies start galloping towards each other at the onset of battle, with outstretched swords and lances. Today they charge us with fines, tax, prison, and in the pandemic, "quarantine prison" and the like. But worst of all, those working in this system know it is all fraudulent and unlawful - but hide this reality from us - so they can earn huge sums of money from us trying to do the impossible = obtain fairness in their private-owned corporate Maritime Law courts - although every now and then, in unimportant cases, they allow us to win so the illusion that the legal system exists for us to achieve fairness - lives on. Likewise, local politicians do a few good things here and there - so we keep on voting - hoping things will get better - next time round!

The statue of Justicia (Lady Justice) reveals all. A statue refers to statutes, not laws. She is blinded to deliberate not see the living man or woman because the legal system only applies to commerce, PERSONS and TITLES = dead entities - so she must **not** see you! She carries a set of scales attached to an anchor - telling you this system is not about fairness, but Maritime Law = you have no rights in their courts - unless you are so well-informed in their playbook that you can play it against them. The scales represent checks and balance - but not in righteousness, but monetary terms: cheques and balance as in balance in

a bank account - their bank account - because corporate courts are all about

making money - for them! In her other hand she carries the symbol of the Vatican, a sword. "You cross me, I cross you!" As happened to Jesus. The Romans killed him because he was a dissident standing up against the Old World Order = New World Order. He was crucified to set a precedence for others thinking of opposing Rome, showing them what they could expect.

Lady Justice = just ice (you get the cold shoulder with Maritime Law) stands on the bible to inform you that the Vatican rules = we wrote the book (the bible) = we write the rules = you have no rights. The snake represents the Vatican/Rockefeller medical industry. They are the snakes in the grass inventing diseases and plandemics to destroy our bodies for profit. In short, Justicia/Lady Justice summarizes the highlights of what the New World Order represents.

11

Judges and lawyers don't like it if you mention Common Law. They know you have rights, but do their best to hide them. As a living man you are not obligated to go to their court, but should you do so, unless you know their playbook inside out and can protect yourself using their rules against them, the moment you set foot in their court you are no longer defined as a living man - because you entered their dock - where their ship is anchored - and the judge is the captain on his ship. And don't forget, when you enter a church you are

regarded as voluntary boarding their ship = Maritime jurisdiction. Judges go to specific universities where they are taught to defraud mankind with Maritime/Admiralty law, what do you feel about that?

Our education systems and media deliberate suppress the above reality so it is difficult for us to see the whole picture. What we learn is deliberate compartmentalized so we can only see parts of the greater picture. For example, mainstream western medicine focuses on treating symptoms and looking at individual body parts rather than looking at how the body works as a system or going to root causes..

We have no rights in their system, but we do have rights, but we have to learn about them, spread knowledge of them and practice applying them to protect our lives and property and avoid all entrapment. All courts today are private-owned courts operating under Commercial Law/Maritime/Admiralty Law and using legalese, a specially formulated and regularly updated language of deceit and trickery used extensively in the banking and legal world, where their motto is "Let he who be deceived, be deceived".

Those involved in this system today are well-trained in tactics to exert an authority over you that they do not have. We too must cooperate, educate each other and assist one other in empowerment, practicing what to say or not say, do and not do in specific situations, so we too are prepared.

And above all, never allow yourself to be referred to as a PERSON, person number, tax number or other form of dead entity, subject or TITLE. As long as you play their game they can dictate, suppress and plunder you as they desire. Never sign anything because then you accept their game. Write your name in full as a living man, woman and child because then you are protected by the law of the living, the Law of the Land, Common Law.

As you can see now, we need Common Law to protect our lives and to reclaim the land that we all own in equal parts. We need Common Law to replace today's freemasonry-run warfare platform where one third of the world's population suppresses, dictates and steals our money; we need Common Law to build free communities all over the world, free of political suppression by setting up real direct democracy with fairness, equality and prosperity for all, everywhere.

Let's rock and roll!
